

My name is Adriana Jones, I am 25 years old and I have a 1 year old son. I currently have my BA in Psychology.

I am interested in this program because I have always wanted to be involved in helping out my community. I see so many things online of people helping out their communities and that has always inspired me to want to do the same and I know this program will be the perfect opportunity.

My ultimate goal for work is to be a child psychologist. I love working with children and I have always been a great help in the lives of the children I've worked with. Some of my hobbies include, going to the movies, going out to eat, baking, etc.
